

Name: _____

All About Arthritis

Directions: Read the article “Juvenile Arthritis” (page 22). Then answer the questions below.

1. List as many body parts that arthritis affects as you can, and circle them on the image.

2. Arthritis is one example of an autoimmune disease, in which the body attacks its own cells. How many other autoimmune diseases can you name? Refer to resources such as health books, encyclopedias, and the Internet for help.
