

Name: _____

Different Ways of Learning

Directions: Read “The Invisible Disability” (page 23). Answer the questions in Part 1 by circling *T* for true or *F* for false and in Part 2 by writing your answer on the lines provided.

Part 1

1. People with dyslexia have trouble with math. T F
2. The brain differences that cause learning disabilities (LDs) may happen before a child is born. T F
3. Because of her LD, Katy Moloney needs extra time when she is reading. T F
4. David Flink suggests that teens with LDs focus on their core strengths. T F
5. You can help a friend who has an LD by doing his or her homework. T F
6. One in every 15 people has an LD. T F
7. People can outgrow their LDs. T F
8. Some LDs may not appear until teen years, when tasks are more complex. T F

Part 2

Which part of living with an LD do you think is more difficult: overcoming the condition or coping with people who don't understand it? Why?
